

Test 1: Completion Notes Required

Steps:

Navigate to Obligation Management Center

Click any obligation with status Open or Active

In the detail drawer, click the Complete button

Leave Completion Notes empty

Click Complete Obligation

Expected: Red error: "Completion notes are required" — status does NOT change.

Test 2: Successful Completion

Steps:

Open an obligation (Open/Active status)

Click Complete

Enter: "Insurance certificate received and verified. Coverage meets minimum requirements."

Leave Completion Date as today

Leave Evidence empty

Click Complete Obligation

Expected:

Modal closes

Status changes to Completed

Detail drawer shows Completion Information section with:

Completed By: your name

Completion Date: today

Completion Notes: the text you entered

Test 3: Completion Date Override

Steps:

Complete another obligation

Change Completion Date to a past date (e.g., 3 days ago)

Expected: Completion date shows the date you selected, not today.

Test 4: Evidence Attachment Upload

Steps:

Open an obligation

Click Complete

Enter notes

Click the upload area → select a PDF file (e.g., insurance_certificate.pdf)

Verify the file appears in the list below the upload area with filename and size

Click Complete Obligation

Expected:

Obligation completes successfully

In the drawer's Completion Information, you see the evidence file listed with:

Clickable filename

File type badge

Download/external link icon

Test 5: Evidence File Opens

Steps:

After Test 4, close and reopen the obligation detail drawer

In Completion Information, click the evidence filename link

Expected: The file opens/downloads in a new browser tab.

Test 6: Contract 360 Timeline Event

Steps:

Note the contract linked to the obligation you completed

Navigate to Contract 360 for that contract

Go to the Activity tab

Refresh the page

Expected: You see an entry like:

Obligation "Insurance Certificate" completed by [Your Name] on 2026-06-10

Test 7: No Duplicate Activity Events

Steps:

Complete one obligation

Check the Activity tab on the obligation detail drawer

Check the Activity tab on the linked Contract 360

Expected: Exactly one completion event per location — no duplicates.

Test 8: Permission Validation

Steps:

Log in as a user with only CONTRACTS_READ permission (e.g., a Viewer role)

Navigate to Obligation Management Center

Open an obligation

Expected: The Complete button should be hidden or disabled. If you try to call the API directly via browser dev tools, it returns 403 Forbidden.

Test 9: Network Interruption During Completion

Steps:

Open browser DevTools → Network tab

Check Offline mode

Open an obligation, click Complete, fill in notes

Click Complete Obligation

Expected:

Error message displayed: "Failed to complete obligation"

Obligation status remains Open — not changed to Completed

Test 10: Completed Obligation Immutability

Steps:

Complete an obligation

Try to edit the obligation (click Edit or use PUT API)

Expected: The backend blocks editing completion_notes, completion_date, completed_by after status is "completed" (unless user is Admin). The status cannot be changed back except via explicit "Reopen" action.

Test 11: Dashboard KPI Counts Update

Steps:

Before completing: note the Open and Completed counts on the KPI cards

Complete an obligation

Check the KPI cards again

Expected:

Open count decreases by 1

Completed count increases by 1

(Refresh the page if needed)

Test 12: Search Finds Completion Notes

Steps:

Complete an obligation with notes containing a unique word (e.g., "zebra_stripe_policy")

Use the search bar in Obligation Management Center

Type that unique word

Expected: The obligation appears in search results.

Test 13: Reopen Resets Completion Data

Steps:

Complete an obligation

Click Reopen in the detail drawer

Reopen the obligation details

Expected:

Status changes back to Open

Completion Information section disappears

completed_date is cleared

Test 14: Complete → Close Contract (Governance)

Steps:

Complete all obligations for a contract

Try to close/finalize the contract

Expected: Contract closure succeeds (no open obligations blocking it).

Test 15: Close Contract Blocked by Open Obligations

Steps:

Ensure at least one obligation for a contract is still Open

Try to close/finalize the contract

Expected: Error: "Cannot close: N obligation(s) are still open."

Quick Reference: What to Check Per Screen

Screen	What to Verify
--------	----------------

Obligation List	Status badge changes to "Completed", search finds completion notes
-----------------	--

Detail Drawer	Completion Information section, clickable evidence files
---------------	--

Activity Tab	Single obligation.completed event
--------------	-----------------------------------

Contract 360	"Obligation 'X' completed by Y" in timeline
--------------	---

KPI Cards	Open ↓, Completed ↑
-----------	---------------------

Viewer User Complete button hidden/disabled
