Procedures performed and our associated findings

1. For each Sample 2024-1 Owned Property and Lease, we compared the Sample Characteristics listed on Exhibit I to Attachment A, as shown on the Data File, to the corresponding information located in, or to the corresponding information recalculated using information located in, the Sources and/or Data File, as applicable, subject to the instructions, assumptions and methodologies provided by the Property Manager, on behalf of the Issuers, described in the notes to Exhibit I to Attachment A and the succeeding paragraph(s) of this Item. Except for the information shown on Exhibit 2 to Attachment A, all such compared information was in agreement.

The Source(s) that we were instructed by the Property Manager, on behalf of the Issuers, to use for each Sample Characteristic are indicated on Exhibit I to Attachment A. Where more than one Source is listed for a Sample Characteristic, the Property Manager, on behalf of the Issuers, instructed us to note agreement if the value on the Data File for the Sample Characteristic agreed with the corresponding information on at least one of the Sources that are listed for such Sample Characteristic on Exhibit I to Attachment A. We performed no procedures to reconcile any differences that may exist between various Sources for any of the Sample Characteristics listed on Exhibit I to Attachment A. In addition, if a particular Source contained multiple values for the same Sample Characteristic, the Property Manager, on behalf of the Issuers, instructed us to note agreement if the value on the Data File for the Sample Characteristic agreed with at least one of the values on the corresponding Source. We performed no procedures to reconcile any differences that may exist between various values on a Source for any Sample Characteristic.

2. For each commercial real estate property and related lease on the 2023-1 Data File and Data File, we compared the Property ID, as shown on the 2023-1 Data File, to the corresponding Property ID, as shown on the Data File, and noted that:

a. 102 of the Related Series Owned Properties and Leases included on the 2023-1 Data File were not included on the Data File and

b. 84 of the Owned Properties and Leases on the Data File were not included on the 2023-1 Data File.

The Property Manager, on behalf of the Issuers, indicated that the 102 Related Series Owned Properties and Leases not included on the Data File were sold or substituted out after the 2023-1 Statistical Cut-off Date and prior to the Statistical Cut-off Date. We performed no procedures to determine the appropriateness, accuracy, completeness or reasonableness of the information provided by the Property Manager, on behalf of the Issuers, that is described in the preceding sentence.

3. For each Related Series Owned Property and Lease included on the Data File, we compared the Sample Characteristics, subject to the additional instruction(s) described in the succeeding paragraph(s) of this Item, all as shown on the 2023-1 Data File, to the corresponding information, as shown on the Data File. Except for the information shown on Exhibit 3 to Attachment A, all such compared information was in agreement.

For the purpose of comparing the land FT and building FT Sample Characteristics, the Property Manager, on behalf of the Issuers, instructed us to round the land FT and building FT, both as shown on the 2023-1 Data File, to the nearest square foot.

For the purpose of comparing the raw land value Sample Characteristic, the Property Manager, on behalf of the Issuers, instructed us to round the raw land value, as shown on the Data File, to the nearest dollar.

The Property Manager, on behalf of the Issuers, instructed us to not perform the comparison procedures described in this Item for:

a. The date of last bump in rent, date of next bump in rent, current consolidated payment and most recent aggregate unit FCCR Sample Characteristics, which the Property Manager, on behalf of the Issuers, instructed us to not compare due to the passage of time between the 2023-1 Statistical Cut-off Date and Statistical Cut-off Date and

b. Any Sample Variable Characteristic listed on the Exempt Lease Schedules for a Related Series Owned Property and Lease, which the Property Manager, on behalf of the Issuers, indicated was due to certain amendments or other changes between the 2023-1 Statistical Cut-off Date and Statistical Cut-off Date.

We performed no procedures to determine the appropriateness, accuracy, completeness or reasonableness of the instructions and information provided by the Property Manager, on behalf of the Issuers, described in this Item.

4. For each Owned Property and Lease on the Data File and Updated Data File, we compared the Property ID, as shown on the Data File, to the corresponding Property ID, as shown on the Updated Data File, and noted that:

a. All of the Owned Properties and Leases were included on both the Data File and Updated Data File and

b. No commercial real estate properties and related leases other than the Owned Properties and Leases were included on the Data File or Updated Data File.

5. For each Sample 2024-1 Owned Property and Lease, we compared the Sample Characteristics, as shown on the Data File, to the corresponding information, as shown on the Updated Data File. Except for the information shown on Exhibit 4 to Attachment A, all such compared information was in agreement.

Attachment A
Page 3 of 4

6. Using:

a. Information on the Updated Data File and

b. The additional information, assumptions and methodologies provided by the Property Manager, on behalf of the Issuers, described in the succeeding paragraph(s) of this Item,

we recalculated the current lease rate of each Owned Property and Lease, subject to the additional instruction(s) described in the succeeding paragraph(s) of this Item. We compared the results of our recalculations to the current lease rate, as shown on the Updated Data File, and found such information to be in agreement.

For the purpose of this procedure, the Property Manager, on behalf of the Issuers, instructed us to recalculate the current lease rate of each Owned Property and Lease by:

i. Multiplying the current consolidated payment, as shown on the Updated Data File, by twelve,

ii. Dividing the result of i. by the sum of the consolidated collateral value for each unique Property ID corresponding to the same contract ID, as shown on the Updated Data File, and

iii. Rounding the result of ii. to the nearest 0.01%.

The Property Manager, on behalf of the Issuers, instructed us to not perform this procedure for any Owned Property or Lease with an investment type of “Hybrid Investment,” as shown on the Updated Data File.

We performed no procedures to determine the appropriateness, accuracy, completeness or reasonableness of the instructions, assumptions and methodologies provided by the Property Manager, on behalf of the Issuers, described in this Item.

Page 4 of 4

7. Using:

a. Information on the Updated Data File and

b. The additional instructions, assumptions and methodologies provided by the Property Manager, on behalf of the Issuers, described in the succeeding paragraph(s) of this Item,

we recalculated the remaining lease term (as of cut-off date) of each Owned Property and Lease, subject to the additional instruction(s) described in the succeeding paragraph(s) of this Item. We compared the results of our recalculations to the remaining lease term (as of cut-off date), as shown on the Updated Data File, and found such information to be in agreement.

For the purpose of this procedure, the Property Manager, on behalf of the Issuers, instructed us to recalculate the remaining lease term (as of cut-off date) of each Owned Property and Lease by:

i. Determining the difference in years between the year of the Statistical Cut-off Date and the year of the rent commencement date (original start date), as shown on the Updated Data File,

ii. Multiplying the result of i. by twelve,

iii. Determining the difference in months between the month of the Statistical Cut-off Date and the month of the rent commencement date (original start date), as shown on the Updated Data File,

iv. Summing the results of ii. and iii.,

v. Subtracting 1 from the result of iv. only if the rent commencement date (original start date), as shown on the Updated Data File, occurred on the first of the month or the first business day of the month, and

vi. Subtracting the result of v. from the original lease term (months), as shown on the Updated Data File.

We performed no procedures to determine the appropriateness, accuracy, completeness or reasonableness of the instructions, assumptions and methodologies provided by the Property Manager, on behalf of the Issuers, described in this Item.
